FEAURES
Pump:
Capacities: to 41 GPM, Total Heads: to 95' TDH
Discharge: 1¼" NPT
Temperature: 104º F continuous, 140º F intermittent.
Rotating cutter and cutter ring: 440 C stainless steel, hardened to 55 – 60 Rockwell C.
Motor:
Single phase: 2 HP, 60 Hz, 3450 RPM, 208/230V, capacitor start with on winding thermal protector.
Class F insulation
Shaft: 300 series stainless steel threaded design.
Bearings: ball bearings upper and lower.
Power cord: 20 feet standard 14/3 STOW.
See BRGS2012 pump bulletin for additional data.

AGENCY LISTINGS
Tested to UL 778 and CSA 22.2 108 Standards
By Canadian Standards Association
File #LR38549

**GRINDER PUMP PACKAGES**
A complete simplex or duplex installation consists of a simplex or duplex pump kit AND a simplex or duplex basin kit.

Choose the simplex or duplex basin kit from the chart on the following pages to best suit your installation needs and make sure it is included in your order.

Both pump/control kit and basin kit must be ordered for a complete installation.

* For indoor panel delete suffix “N4”. SIMRGSKT includes a S10020N1 panel. DUPGRSKT includes a D10020N1 panel.

---

**TYPICAL INSTALLATION**

---

1. A 1½” minimum discharge pipe requires a minimum flow of 15 gpm to maintain a 2 ft/sec scouring velocity. Flows less than 15 gpm will allow solids to settle in the pipe.
**BASIN KITS** *(Each pump kit requires one of the following basin kits to complete the Residential Pump Package.)*

* Basins are not pre-drilled for 1.5" electrical grommet or for 4" inlet grommet. Parts are shipped loose. Installer must drill holes for grommets.

**Guide Rail Equipped Basin Installation** *(pump is suspended by its discharge)*

**Simplex**
- 24" diameter fiberglass basin with integral anti-floatation ring.
- Stainless steel hardware.
- Grass green solid fiberglass cover.
- 1.5" electrical grommet. *
- 4" inlet grommet. *
- Brass quick disconnect coupling.
- Schedule 40 galvanized steel discharge pipe.
- Cast iron ball type check valve.
- Bronze gate valve.
- ¼" stainless steel pump lifting cable
- Pump slide rail system complete with PVC guide pipe and integral stainless steel guide bracket for those installations requiring a guide rail type system.

**Duplex**
- 36" diameter fiberglass basin with integral anti-floatation ring.
- Stainless steel hardware.
- Grass green solid fiberglass cover.
- 1.5" electrical grommet. *
- 4" inlet grommet. *
- (2) Brass quick disconnect couplings.
- Schedule 40 galvanized steel discharge pipes.
- (2) Cast iron ball type check valves.
- (2) Bronze gate valves.
- (2) ¼" stainless steel pump lifting cables.
- Pump slide rail system complete with dual pipe stainless steel guide rail system assembly for those installations requiring a guide rail type system.
