All housings are manufactured of reinforced FDA grade polypropylene and are sealed with a top seated Buna-N O-Ring and Acme squared thread closure.

All caps (except Valve-in-Head models) have four mounting bosses for ridge "L" bracket mounting and include a pressure relief button.

- All 10" housings use standard 9-3/4" filter cartridges.
- All 20" housings use two standard 9-3/4" filters coupled together or one single 20" cartridge.
- Cartridge couplers are sold separately.
