FEATURES
Design: Capable of grinding domestic sewage in the modern wastewater stream.

Cutter System: Stainless steel, axial lobe-cutter design with 8-hole cutting plate, capable of 4.9 million bites per hour and TDH up to 66 feet.

Impeller: Cast iron, volute type for high efficiency. Adaptable for guide rail system.

Motor: Fully submerged in oil-filled chamber. High grade turbine oil surrounds motor for more efficient heat dissipation, permanent lubrication of bearings and mechanical seal, and protection against outside environment.

Motor Shaft: 300 series stainless steel.

Designed for Continuous Operation: Pump ratings are within the motor manufacturer’s recommended working limits, can be operated continuously without damage when fully submerged.

APPLICATIONS
Designed for residential/light commercial/small office sewage (2” pump replacement and new construction) or anywhere modern wastewater flushables are creating clogging issues.

SPECIFICATIONS
Pump:
- Capacities: to 53 gpm
- Total heads: to 66’ TDH
- Discharge: 2” NPT
- Temperature: Class F insulation - 104°F (40°C) maximum continuous, 140°F (60°C) maximum intermittent
- Single mechanical seal: silicon carbide rotary/silicon carbide stationary, 300 series stainless steel metal parts, BUNA-N elastomers
- Fasteners: 300 series stainless steel
- Axial cutter and plate: 440C hardened stainless steel

Bearings: Upper and lower single row sealed ball bearings for precision positioning of parts and to carry all radial and thrust loads.

Mechanical Seal: Hardfaced silicon carbide on silicon carbide for longer life, stainless steel metal parts, BUNA-N elastomers.

Power Cable: Severe duty rated, oil and water resistant. Epoxy seal on motor end provides secondary moisture barrier in case of outer jacket damage and to prevent oil wicking.

O-Ring: Assures positive sealing against contaminants and oil leakage.

Paint: Electro-coat paint process protects all casting surfaces.

May be used with optional guide rail. See Fittings or Pump Removal Systems.

AGENCY LISTINGS
Tested to UL 778 and CSA 22.2 108 Standards
By Canadian Standards Association

Motor:
- Single-phase, 0.5 and 1 hp 60 Hz, 3500 rpm, 115V and 230V CSCR motor with on winding thermal protector. No external capacitor kits required.
- Class F insulation
- Shaft: 300 series stainless steel threaded design
- Bearings: Single row sealed ball bearings, upper and lower
- Power cord with a 115V or 230V NEMA three prong grounding plug. Allows connection to a piggyback float switch. 20 foot long cable.

STANDARD PARTS

- Ball Bearing – upper: Single row ball - SKF 6203-22
- Ball Bearing – lower: Single row ball - SKF 6204-22
- Mechanical Seal: Silicon carbide/silicon carbide; Type 16
- O-Ring – motor cover: BUNA-N, AS 568A-166

K-SERIES

- NEMA 4X dead front outdoor rated enclosure
- Red LED alarm beacon
- HOA selector switch
- Field wiring terminal block
- Single phase models handle 120, 208 and 230V service
- Three phase models handle 200, 230 and 460V service
- Requires separate control/alarm power feed
- See brochure "BCPKSDPANELS" for additional information

BOULAY SERIES

- NEMA 4X outdoor rated enclosure
- Red alarm beacon
- HOA selector switch
- Through door pump run light(s)
- Through door alarm test and horn silence button
- Single phase models handle 120, 208 and 230V service
- Three phase models handle 200, 230, 460 and 575V service
- Accepts single or dual power feed
- See brochure "BCP3 R11" for additional information on simplex models
- See brochure "BCP4 R14" for additional information on duplex models

CONSTRUCTION DETAILS

- Power Cable - type: 14/3 SJTOW with NEMA Plug
- Motor Cover: Gray cast iron - ASTM A48, Class 30
- Bearing Housing: Gray cast iron - ASTM A48, Class 30
- Seal Housing: Gray cast iron - ASTM A48, Class 30
- Casing: Gray cast iron - ASTM A48, Class 30
- Impeller: Gray cast iron - ASTM A48, Class 30
- Motor Shaft: AISI 300 series stainless steel
- Motor Design: NEMA 48 frame, oil filled with Class F insulation
- Motor Overload Protection: On winding thermal protector - auto reset
- External Hardware: 300 series stainless steel
- Impeller Type: Semi-opened with pump out vanes on back shroud
- Cutter: Type 440C hardened stainless steel
- Oil Capacity – motor chamber: .57 gallons

CUTTER ASSEMBLY

- 8-hole cutting ring
- 3 lobe cutter

Note: Boulay Series part numbers have additional available features, see below for more information.

Note: K Series panel part numbers include floats, to order without float switches, remove the "WF" suffix. Boulay Series panels do not include float switches.
