FOR AFFORDABLE AND RELIABLE
AFTER MARKET SERVICE, CALL THE
PROFESSIONALS AT GOULDS PUMPS!
Quality service begins with immediate disassembly, inspection and failure analysis. Our customer service group will then provide you with a firm repair price quotation. Whether your options include complete pump rebuild, refurbishing of column, tube and shaft, rebowling or bowl assembly repair, your order will be treated with the utmost importance. You will find our lead times second to none.

Goulds Pumps professionals have the expertise to service any competitor’s pump with assurance to you and your customer that these units will be brought back to industry standard tolerances and balancing specifications, thus ensuring that you will get the maximum possible service life from your pump. You have made a considerable investment in your pump and Goulds Pumps would like to assist you in maximizing your returns.

With Goulds Pumps, you have access to a first rate testing facility, ensuring that your unit will provide you with the highest possible efficiency and lowest possible life cycle cost. In our lab, we can run full performance, hydrostatic and vibration testing. Our testing facility will accommodate bowl sizes to 30”, flows to 30,000 GPM and up to 1000 HP. Variable speed curves are also available. The test lab is complete with a 35’ pit depth to accommodate complete pump testing.
REBOWLING - THE PROCESS OF INSTALLING A NEW BOWL ASSEMBLY ON ANY VERTICAL PUMP MANUFACTURER’S USED EQUIPMENT. THIS CAN BE DONE FOR EITHER FLANGED OR THREADED COLUMN PIPE ADAPTATIONS. REBOWLING A COMPETITOR’S UNIT EFFECTIVELY CHANGES IT TO A GOULD’S PUMPS PRODUCT. THIS GIVES YOU THE OPPORTUNITY TO TAKE FULL ADVANTAGE OF THE GOULD’S PUMPS SUPERIOR PERFORMANCE.
