Self-charging

Indicator lights on charger

Alarm sounds when pumping and battery won't charge.

BBSP/BBSP2

BATTERY BACKUP SUMP PUMPS

Bell & Gossett

a xylem brand

APPLICATIONS

Designed to provide emergency backup service for primary pump in the event of a power outage. Will also operate if main pump can't keep up with inflow.

SPECIFICATIONS

- 12 volt pump
- Float switch
- 10 amp battery charger
- Check valve
- Pipe fittings
- Battery box is 7.5" W, 14.5" L, 8" D and is sized for Group 24-30 batteries.
- System requires minimum 105 amp deep cycle marine battery, Series 27, (not included).

TYPICAL SPECIFICATIONS

The contractor shall furnish and install quantity _____, Model BBSP/2 _____ Battery Powered Backup sump pumps as illustrated on the plans and in accordance with the following specifications.

The submersible backup sump pump shall be 12V DC powered by a 105 amp deep cycle marine battery (supplied by installing contractor). The system is designed to provide temporary sump pump draining in the event of a power outage or additional pumping volume if the main pump cannot keep up with inflow.

The unit includes a single phase 115V battery charger, with polarized NEMA two prong plug, 6-foot power cord, a battery box, a backup sump pump, a check valve, a mechanical on-off switch and all necessary fittings for installation. Battery charger also has built in alarm to notify owner of operation.
