REDJACKET SERIES

Enduro 50 Hz

TECHNICAL BROCHURE
BRJENDURO50 R1

Goulds Water Technology
a xylem brand
50 Hz Residential Water

FEATURES

• Utilizes an internal spring-loaded check valve design.
• Pump casing and cable guard constructed of heavy gauge 300-series corrosion resistant stainless steel.
• Stainless steel discharge head and motor adapter for maximum strength and corrosion resistance.
• Powered by CentriPro submersible motors. Available in 2-wire and 3-wire single-phase and three-phase models.

• Discharge head, casing and motor adapter have left-hand threads.
• Pump and motor assembly are corrosion resistant.
• Noryl® Impeller-diffuser assemblies are mounted on a 303 stainless steel hex shaft for positive drive.
• Noryl-stage components (impellers/diffusers) are permanently bonded by a reliable, foolproof, ultrasonic welding process.
“AE” SUBMERSIBLE PUMP SERIES AVAILABLE IN 2 & 3 WIRE MODELS - RPM 2850
Best Efficiency can be reached at 16 LPM

1) The tissue in plants that brings water upward from the roots;
2) a leading global water technology company.

We're a global team unified in a common purpose: creating advanced technology solutions to the world’s water challenges. Developing new technologies that will improve the way water is used, conserved, and re-used in the future is central to our work. Our products and services move, treat, analyze, monitor and return water to the environment, in public utility, industrial, residential and commercial building services, and agricultural settings. With its October 2016 acquisition of Sensus, Xylem added smart metering, network technologies and advanced data analytics for water, gas and electric utilities to its portfolio of solutions. In more than 150 countries, we have strong, long-standing relationships with customers who know us for our powerful combination of leading product brands and applications expertise with a strong focus on developing comprehensive, sustainable solutions.
