3" GFK & GFV Series

SUBMERSIBLE SEWAGE PUMPS

GOULDS WATER TECHNOLOGY

a xylem brand
APPLICATIONS
Used in a variety of residential, commercial and industrial applications such as:
• Sewage systems
• Flood and pollution control
• Dewatering/effluent
• Farms
• Hospitals
• Trailer courts
• Motels

SPECIFICATIONS
• Capacities:
  3” Series: Up to 560 gpm

• Total head:
  3” Series: Up to 157 feet TDH

• Horsepower:
  3” Series: Up to 11 hp

• Discharge size:
  3” Series: 3” ANSI flange

FEATUERS
SELF-CLEANING: The patented design of the self-cleaning K-impeller has been proven to reduce clogging and maintain efficiency when pumping wastewater
SOLIDS HANDLING: The vortex impeller can handle solids up to 3” in size and resists clogging better than a traditional two-vane impeller
POWERFUL: An efficient air-filled motor provides built-in thermal overload protection allowing the pump to run continuously without overheating

ROBUST: Components are made from robust cast iron for long life and easy maintenance
DURABLE: Heavy-duty long life bearings provide peace of mind
SMOOTH: The double mechanical seal provides extra reliability and protects against leakage*
INSTALLATION OPTIONS: Pump has built-in dual seal and sensors for high temperature and seal leak detection which accommodate upgraded panel installations*

• Insulation: Class F: 310°F (155°C)
• Maximum Fluid Temperature: 104°F (40°C)
• Phase: Three-phase
• Frequency: 60 Hz
• Impeller:
  GFK Series: Self-cleaning K-impeller
  GFV Series: Vortex impeller
• Motor: Air-filled 3400 rpm motor with built-in thermal overload protection
• Bearings: Single row ball bearings
• Upper-Lower Seal Configurations (configurations vary by model):
  - Carbon/Aluminum Oxide - Aluminum Oxide/WCCR
  - Carbon/WCCR - WCCR/WCCR
• Cable Length: 50 ft (16 m) power cord

AGENCY LISTINGS
Tested to UL 778 and CSA 22.2 108 standards by Canadian Standards Association

Upgraded installation requires MiniCAS module in control panel.

Xylem ['zɪləm]

1) The tissue in plants that brings water upward from the roots;
2) a leading global water technology company.

We’re a global team unified in a common purpose: creating advanced technology solutions to the world’s water challenges. Developing new technologies that will improve the way water is used, conserved, and re-used in the future is central to our work. Our products and services move, treat, analyze, monitor and return water to the environment, in public utility, industrial, residential and commercial building services settings. Xylem also provides a leading portfolio of smart metering, network technologies and advanced analytics solutions for water, electric and gas utilities. In more than 150 countries, we have strong, long-standing relationships with customers who know us for our powerful combination of leading product brands and applications expertise with a strong focus on developing comprehensive, sustainable solutions.

For more information on how Xylem can help you, go to www.xyleminc.com
